Aarav Mehta

Data Scientist | Machine Learning Engineer

Pune, Maharashtra, India | +91 98765 43210 | aarav.mehta.ds@example.com | linkedin.com/in/aarav-mehta-ds | github.com/aaravmehta-ds

PROFILE

Data Scientist with 3+ years of experience developing machine learning models, analytics pipelines, and data products. Strong in Python, SQL, statistics, supervised learning, NLP, and model deployment. Experienced in converting business problems into measurable ML solutions and communicating insights to technical and non-technical stakeholders.

TECHNICAL SKILLS

Languages	Python, SQL, R, Bash
ML / AI	scikit-learn, XGBoost, LightGBM, TensorFlow, PyTorch, NLP, Feature Engineering, Model Evaluation
Data	Pandas, NumPy, PostgreSQL, MySQL, Spark, ETL, Data Cleaning, Statistical Analysis
MLOps / Cloud	MLflow, DVC, Docker, GitHub Actions, AWS (S3, EC2), FastAPI
Visualization	Matplotlib, Seaborn, Plotly, Power BI

EXPERIENCE

Data Scientist - NovaAnalytics Pvt. Ltd., Pune | Jun 2024 - Present

- Built and deployed classification and forecasting models that improved customer-risk prediction AUC from 0.78 to 0.89.
- Designed reusable Python and SQL data pipelines processing 5M+ monthly records for analytics and model training.
- Implemented experiment tracking with MLflow and versioned datasets/models with DVC, reducing model-release friction.
- Created Power BI and Plotly dashboards used by product and operations teams to monitor KPIs and model-driven outcomes.

Machine Learning Engineer - InsightWorks Technologies, Bengaluru | Jul 2023 - May 2024

- Developed an NLP pipeline for support-ticket classification using TF-IDF, transformer embeddings, and gradient-boosting models.
- Built a FastAPI inference service and Dockerized the application for consistent deployment across development and staging environments.
- Performed feature selection, hyperparameter tuning, cross-validation, and error analysis to improve model reliability.

PROJECTS

Customer Churn Prediction - Built an end-to-end churn prediction pipeline using XGBoost, SHAP-based interpretability, and an automated training workflow. Achieved 86% F1-score on a held-out test set.

Retail Demand Forecasting - Developed weekly SKU-level forecasts using gradient boosting and time-series features. Added automated data validation and performance monitoring.

Resume Intelligence API - Created a FastAPI service that extracts structured skills, experience, and education fields from resumes and generates a role-fit score using NLP techniques.

EDUCATION

B.Tech. in Computer Science and Engineering - Vishwakarma Institute of Technology, Pune | 2019 - 2023 | CGPA: 8.7/10

CERTIFICATIONS

AWS Certified Machine Learning - Specialty (2025) | Google Advanced Data Analytics (2024) | DeepLearning.AI Machine Learning Specialization (2024)

ADDITIONAL

Open-source contributor in Python/data tooling | Kaggle participant | Languages: English, Hindi, Marathi
